

EXO – GREEN TECHNOLOGIES

(AN ISO 14001:2015 AND MSME CERTIFIED COMPANY)

REDEFINING WATER TREATMENT FOR A SUSTAINABLE TOMORROW

COMPANY PROFILE

Welcome to Exo-Green Technologies Private Limited! 🌱

Formerly known “**Exo-Green Engineering Services**” and founded in 2022, We are a leading engineering firm specializing in innovative design solutions for wastewater treatment plants, STPs, ETPs, MBR, MBBR, and more. With a strong commitment to sustainability, we strive to create environmentally friendly and cost-effective solutions that address the pressing challenges of wastewater management.

Our expert team of engineers leverages cutting-edge technology and years of experience to deliver tailor-made designs that optimize resource usage, minimize environmental impact, and ensure compliance with regulatory standards. Collaborating with diverse clients, we foster a cleaner, greener future, ensuring water resources are preserved for generations to come.

Join us in revolutionizing wastewater engineering for a more sustainable world! 🌍 💧

SERVICES

1. Operation and Maintenance
2. Annual Maintenance Contract:
STP, ETP, WTP, WWTP
3. Plant Upgrade and Improvement
4. Design Consultancy of STP and ETP
5. Water Balance Audit
6. Plant Audit and Evaluation
7. Spare Parts Management

TECHNOLOGIES

1. EXO-OXYGENATOR
2. EXO-DESCALER
3. EXO-VORTEX COD BUSTER
4. CLOTMASTER
5. FLOCMaster

PRODUCTS

Sewage Treatment Plant

Effluent Treatment Plant

BNR

Ultrafiltration

Demineralization Plant

Reverse Osmosis

Water Softening Plant

DCPU

SCPU

ZLD

Dissolve Air Floatation

PRODUCTS

Advanced Oxidation System

Activated Carbon Filter

Pressure Sand Filter

Filtration Media

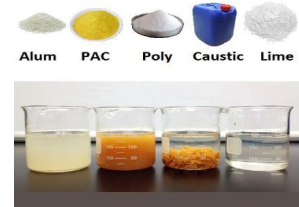

Water Analysis and Testing

Sludge Dewatering

Water Storage

Water Treatment Chemicals

Clarifier

Oil Water Separator

Online Monitoring System

PRODUCTS

Water Treatment Chemicals

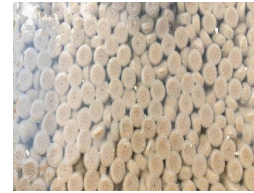

Ozonation System

CHLORINATION SYSTEM

Heavy Metal Removals

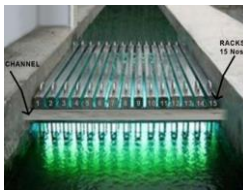

Bio Cultures:
Aerobic & Anaerobic

Cooling Tower Treatment
Chemicals

Bag Filtration unit

UV Disinfection unit
